Alternative Enterprises - http://www.ag.ncat.edu/extension/programs/alt_ent.htm

This program provides extension educational resources to small-scale producers about the selection of and development of alternative enterprises. These enterprises are primarily horticultural but also include livestock, nursery and aquaculture.

Keith Baldwin, Horticulture Specialist
(336) 334-7957
Kbaldwin@ncat.edu

Community Supported Agriculture - http://www.ag.ncat.edu/extension/programs/comm_supported_ag.htm

Technical assistance to county-based extension personnel who work directly with growers who deal with planning and marketing issues associated with existing community supported agriculture (CSA) or subscription sales.

Farm Management for successful direct marketing - http://www.ag.ncat.edu/extension/programs/farm_mgmt.htm

This program provides educational resources to improve farm business management skills so that limited resource, small and part-time farmers can increase their income from direct marketing.

John O'Sullivan, Sustainable Agriculture Coordinator
(336) 334-7957
johno@ncat.edu

Farmers Adopting Computer Training (FACT) – <http://www.ag.ncat.edu/extension/programs/fact.htm>

This project is designed to train farm families one-on-one or in group settings how to use computers for their farming operations in order to become more competitive in the marketplace.

Marcie Joyner, Extension Associate
(336) 334-7956
joynerm@ncat.edu

Francis Walson, Extension Associate
(336) 334-7956
walson@ncat.edu

Small-Scale Production of Horticulture, Flowers and Fruits -

http://www.ag.ncat.edu/extension/programs/small_scale.htm

This program provides extension educational resources to small-scale producers about production practices to improve small-scale production of horticultural vegetables, flowers and fruit.

Keith Baldwin, Horticulture Specialist

(336) 334-7957

Kbaldwin@ncat.edu

Successful Small Farming, Direct Marketing -

http://www.ag.ncat.edu/extension/programs/direct_mkt.htm

This program offers educational resources through the North Carolina Cooperative Extension system to improve the direct marketing skills of limited-resource farmers.

John O'Sullivan, Sustainable Agriculture Coordinator
